

State	Citation	Who May Administer Vaccination	Specified Exemptions	Frequency of Vaccinations
<b>Alabama</b>	Code of Ala. §3-7A-2  Ala. Admin. Code r. 420-4-4-.08	Rabies officer, his/her authorized representative, or any duly licensed veterinarian	With consent of owner, a veterinarian with valid VCPR may exempt an animal if deemed medically necessary	Dogs, cats, and ferrets at 3 months of age, and subsequently in accordance with the label of the vaccine used.
<b>Alaska</b>	7 AAC 27.022	By, or under the direct supervision of, a licensed veterinarian; lay vaccinators qualified to administer the vaccine and approved by the Department	Not specified	Dogs, cats, and ferrets in accordance with the Compendium of Animal Rabies Prevention and Control.
<b>Arizona</b>	A.A.C. § R3-2-409	By, or under the direct supervision of, a veterinarian, in accordance with the Compendium*	Not Specified	All animals must be vaccinated in accordance with the Compendium*
<b>Arkansas</b>	A.C.A. § 20-19-305  Ark. Admin. Code 007.15.1-I Ark. Admin. Code 007.15.1-II	Licensed veterinarian or agent of the Department of Health	Not specified	Dogs, cats, and any warm-blooded animal which may be affected by rabies  Initial vaccination for dogs and cats at 4 months of age and older. Vaccination at a younger age should be in accordance with the labels of USDA licensed rabies vaccines. Unvaccinated dogs or cats more than four (4) months of age, that are acquired or moved into the state must be vaccinated within thirty (30) days of purchase or arrival, unless there is documented evidence of current vaccination.  Revaccinations during the 12th month after initial vaccination. Thereafter, the interval between revaccinations should

				conform to the Compendium*
<b>California</b>	California Health & Safety Code § 121690  17 CCR § 2606.4	Licensed veterinarians	An exemption may apply if a licensed veterinarian determines, on an annual basis, that a rabies vaccination would endanger the dog's life due to disease or other considerations that the veterinarian can verify and document	Dogs must be vaccinated at 3 months of age and revaccinated one year after the primary immunization with an approved type of rabies vaccine.  Dogs shall be revaccinated thereafter at least once every three years with an approved type of rabies vaccine.
<b>Colorado</b>	C.R.S.A. § 30-15-101  C.R.S.A. §25-4-607  6 CCR 1009-1:8	Licensed veterinarians	A veterinarian, with owner consent, may exempt an animal from a rabies vaccination if the rabies inoculation is contraindicated due to the animal's medical condition	Dogs, cats and ferrets in accordance with the Compendium*
<b>Connecticut</b>	Conn. Gen. Stat. § 22-339b	Licensed veterinarians	When a licensed veterinarian has examined the animal and determined that a rabies vaccination would endanger the animal's life due to disease or other medical considerations	Dogs and cats at 3 months of age or older. Animals vaccinated prior to one year of age must receive a booster vaccination one year after the initial vaccination.  Animals shall then be vaccinated every 3 years thereafter.
<b>Delaware</b>	3 Del. C. § 8204	Licensed veterinarians	Not specified	Dogs, cats, and ferrets at 6 months of age, and subsequently according to the label on the vaccine used.
<b>District of Columbia</b>	D.C. Code § 8-1803  24 DCMR § 901	Licensed veterinarians	Not specified	Dogs at 3 months of age.  Cats at 4 months of age.  A dog or cat must be re-vaccinated at least every three years after receiving the second rabies shot.
<b>Florida</b>	West's F.S.A. § 828.30	Licensed veterinarians	A dog, cat, or ferret is exempt from vaccination against	Dogs, cats, and ferrets at 4 months of age, with a

			rabies if a licensed veterinarian has examined the animal and has certified in writing that at the time vaccination would endanger the animal's health because of its age, infirmity, disability, illness, or other medical considerations.	booster shot 12 months later.  Thereafter, the intervals between vaccinations must comply with the label of the vaccine used.
<b>Georgia</b>	Ga. Code Ann. § 31-19-5  Ga. Code Ann., § 43-50-3  Ga Comp. R. & Regs. 40-13-2-.19	Licensed veterinarians	Not specified	It is up to county boards of health to promulgate rules regarding rabies vaccinations.  For dogs, cats, and ferrets being imported into the state, they must be vaccinated at 12 weeks in accordance with the Compendium*
<b>Hawaii</b>	Haw. Admin. Rules (HAR) § 4-29-8	Not specified	Not specified	(2) Rabies vaccination and general requirements. All dogs and cats ninety days of age or older at the time of arrival shall be vaccinated against rabies with an approved inactivated or live recombinant rabies vaccine.  All dogs and cats shall: (A) Be vaccinated with an inactivated or live recombinant rabies vaccine (B) Have the product name, lot or serial number, and expiration date of the vaccine used listed on the health certificate
<b>Idaho</b>	I.C. § 25-2801 I.C. § 25-2803 Idaho Admin. Code r. 02.04.21.500	Under the direct supervision of a veterinarian according to Idaho Rabies Control Protocol and subject to	Not specified	Dogs, cats, and ferrets older than 3 months, with booster one year later and then according to the Compendium*  All dogs and cats imported into the state of Idaho shall

		county license requirements		be accompanied by an official certificate of veterinary inspection attesting that such dogs are apparently free from any infectious, contagious or communicable disease, and have been officially vaccinated for rabies.
<b>Illinois</b>	510 ILCS 5/8 8 Ill. Adm. Code 30.90	Licensed veterinarians	An animal is exempt from vaccination requirements if a licensed veterinarian determines in writing that a rabies inoculation would compromise the animal's health	Dogs and cats at 4 months with a booster shot 12 months later.  Subsequent vaccine administration and duration of immunity must be in compliance with USDA licenses of vaccines used.
<b>Indiana</b>	345 IAC 1-5-1 345 IAC 1-5-2	Licensed and accredited veterinarians	Not specified	Dogs, cats, and ferrets at 3 months of age.  Ferrets must be revaccinated annually; dogs and cats must be revaccinated according to vaccine label.
<b>Iowa</b>	I.C.A. §351.33 I.C.A. §351.35  Iowa Admin. Code 21-64.25	Licensed veterinarians	Not specified	Dogs at 6 months of age.  Revaccination according to the Compendium*
<b>Kansas</b>	K.S.A. 21-1213  K.A.R. 9-7-9 K.A.R. 9-7-9a K.A.R. 9-18-5	Accredited and/or licensed veterinarians as well as those acting under the direct supervision of a licensed veterinarian	Not specified	For dogs and cats imported into the state, they must be accompanied by a certificate of health or veterinary inspection that such dogs and cats at 3 months have been vaccinated against rabies with a product licensed by the U.S.D.A.
<b>Kentucky</b>	KRS §258.015  902 KAR 2:070	Licensed veterinarians in accordance with the manufacturer's instructions	Not specified	Dogs, cats, and ferrets at 4 months and revaccinated 1 year after the initial vaccination.  Thereafter, dependent upon the type of vaccine

				administered as certified by the veterinarian.
<b>Louisiana</b>	La. Admin Code. tit. 51, pt. III, § 103	Licensed veterinarians	Not specified	Dogs, cats, and ferrets at 3 months.  Revaccination one year later and subsequently in accordance with the Compendium*
<b>Maine</b>	7 M.R.S.A. §3916  10-144 CMR Ch. 260  ME LD 103 (HP 69) 2021	Licensed veterinarian or under the direct supervision of a licensed veterinarian	Dogs and cats may be exempt from vaccination requirements if a medical reason exists and an owner has a written statement signed by a licensed veterinarian	Cats at 3 months. Cats must be revaccinated one year after the initial vaccination and then according to the type of vaccine used.  Dogs at 3 months, including wolf-hybrids. Dogs must be revaccinated according to the type of vaccine used.
<b>Maryland</b>	MD Code, Health - General, § 18-318 MD Code, Health - General, § 18-319  COMAR 10.06.02.10	Licensed veterinarians	Not specified	Dogs, cat, or ferret that is 4 months old or older shall have the dog, cat, or ferret vaccinated adequately against rabies.
